## ABOUT ME

§ Second year student who is expected to graduate in 2024, developing knowledge on practical and theoretical aspects of software engineering via various courses from the university and other self education.

## SKILLS

## EDUCATION

2020-2024	<b>Software Engineering with Industrial Placement Year (BSc)</b> Finished the first year with 72 (first class) mark and continuing my studies in the second year with courses such as Algorithms and Data Structures, Processor Micro Architecture, Database Systems, Distributed Systems, Software Engineering 1 and 2 and various other courses.	University of Manchester
2019-2020	<b>Foundation Year</b> Studied Math (A*), Chemistry (A*), and Physics (A*) to enrol into university.	INTO Manchester
2015 – 2019	<b>High School</b> Graduated with 94/100 overall score, had a role in a science club and developed science projects.	Nazmi Arikan Fen Bilimleri Science High School

## PROJECTS

10/2020 – 06/2021	<b>Full stack developer</b> In a website called FilmFlick developed a user system where users could create an account, modify it, and leave reviews to movies, ensured the safety of the users accounts information and posts in a database. Python / Flask / Bootstrap / Bcrypt / SQLite	FilmFlick
June 2021	<b>Developer</b> Using A* algorithm and Manhattan Distance, created an application to solve any given valid maze, and showed the visualisation of the solution with a GUI using JavaFX. Java / A* / JavaFX	Maze Solver
July 2021	<b>Developer</b> Using Tweepy library, created a twitter bot which can perform various actions such as retweeting, replying to tweets and so forth. Developed a better understanding of automation and using service API's. Python / Tweepy	Twitter Bot
07/2021 – 08/2021	<b>Developer</b> Implemented the simple and dynamically programmed version of Levenshtein Distance to create an application which corrects words and prints the time it takes to correct a word. Gained insight on dynamic programming and its advantages. C++ / Levenshtein Distance	Word-Correction Program

## EXPERIENCE

06/2019 – 09/2019	<b>Distribution Officer</b> Managed the distribution of aluminium profiles within a team. Gained customer communication skills and managing operations in a business facility.	Basak Aluminium.Inc
-------------------	---	---------------------

## LANGUAGES

English - proficient  
Turkish - native
